Modular Bar Dies— for 1800 and 2200 Series Units

Please call our SpecFAB® department at 800-441-8440 with your design requirements.

Design and Construction Features

- Designed specifically for Eagle Group's 1800 or 2200 series underbar equipment.
- Interior finish is 20 gauge type 304 stainless steel.
- Substructure is 12 gauge galvanized steel.
- Bar dies enclose and hide soda, beer, electrical and plumbing lines in a chase incorporated into the unit.
- The chase serves as a rear wall and splash. Front of the bar can be covered by removable panels that provide easy access to the chase for future modifications and maintenance.
- Underbar equipment can be mounted to, or just placed against, modular bar dies. Bar dies must be securely fastened to the floor. For added stability, fasten one or both ends to a wall.
- Panels can be covered in a decorative laminate, an elegant wood millwork finish or a stunning stainless steel finish.
- Add decorative brass or chrome rails and fittings to match any decor.
- Optional factory U.L. wiring and plumbing package.
