\* See charts on back for full model numbers.

### Design and Construction Features

- Utilizes a heavy duty open wire shelf design: wires of mat assembly are spaced 7/16" (11mm) apart to accommodate rounded bottom of soda bottles.
- Patented QuadTruss® design (patent #5,390,803) makes EAGLE shelves up to 25% stronger and provides a retaining ledge for increased storage stability and product retention.
- Tapered split sleeves of high-temperature-resistant ABS plastic create a positive lock that becomes stronger as the load increases.
- Shelves offered in 18" and 24" (457 and 610mm) widths, and in 36", 48", and 60" (914, 1219, and 1529mm) lengths.
- Available with EAGLEbrite® zinc, Valu-Master® grey or Valu-Gard® green epoxy finish. Also available in white, black, or red epoxy.
