Every bartender wants a perfect pour. By rinsing the glass before pouring, you rinse away any impurities and condition the glass for that perfect pour. Eagle's NEW Drop-In Glass Rinser Troughs are easy to use: Turn a glass upside-down, place it on the glass rinser, and push down to activate it. It's that easy! Sits flush with the countertop! Cover is removable for ease of cleaning.

Choose from four models ranging from six inches to 24 inches in length.

For custom configuration or fabrication needs, contact our **SpecFAB® Division**.
