Field Services

Eagle Manufacturing and Field Services make a Perfect Fit!

What happens when the equipment you carefully selected or had custom fabricated for your project arrives on site?
Well, that depends.

It depends on the quality of the pre-work, site prep and installation. That is why Eagle Group offers a comprehensive set of Field Services that go beyond warranty service to ensure your perfect plan goes as planned.

Field Installation Service Steps

- 1** — **FIELD MEASURING / LASER TEMPLATING**
We arrive on site to take precise, relational measurements.
- 2** — **ENGINEERING**
Remote connect allows engineer to see all.
- 3** — **INSTALLATION SERVICES**
Our team of expert installers can give you heightened control, convenience, and peace of mind with your projects.

MEASURE & LASER TEMPLATING

The straightest walls and levellest floors are usually neither. That's why the measurements of these partially finished spaces need to be more precise to ensure your tables, counters, shelving and more fit properly in the space. When you engage Eagle Group Field Services, as soon as your walls are up, we arrive on site to take precise, relational measurements.

Our precision measuring devices enable us to quickly produce more accurate templates than more traditional manual tools and plywood templates. In fact, before we leave the site the templates are already in the hands of our off-site engineers.

All Eagle Group equipment specified for the project is then designed and fabricated to fit the actual structure.

Laser Templating

- Digital measuring system.
- Records measurements directly to CAD.
- Provides relational data.
- Alternative to manual devices and plywood templates.

How It Works

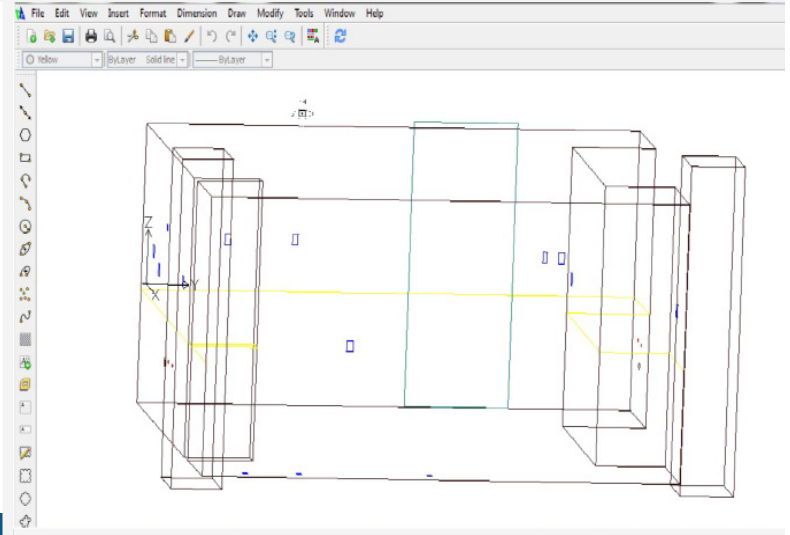

- Disto Laser captures data.
- Point and shoot or remote operation.
- Software interprets and allows manipulation.

ENGINEERING AND PRODUCTION

A Field Services Team member saves and sends the measurements back to Eagle engineering at the factory while they are still on site.

Remote connect allows the engineer to see everything.

Equipment is then designed based on the actual structure.

INSTALLATION SERVICES

Our team of expert installers can give you heightened control, convenience, and peace of mind with your projects. By using Eagle Group's talented team you avoid the risks of delays, finger-pointing and confusion that typical contractor/subcontractor relationships create.

What do we install?

- Back of house
- Servery
- Millwork
- Granite, Marble, Quartz, Solid Surface

Wherever your project is in the U.S., we can directly provide installation services!

WHY CHOSE EXPERT EAGLE INSTALLERS?

Expert Installers

- Fabricators, welders, electricians and carpenters.
- Certified stone, quartz and solid surface installers/repairmen.

Product Knowledge

- Fast, efficient and safe field services team.
- Our Field Services Team has direct contact with the factory to avoid any confusion.

Control Project Start to Finish

- Eagle Group would be involved in the design, fabrication, installation, and service process, ensuring everything runs smoothly.
- Hiring Eagle Group to work on your project minimizes subcontractors and the confusion that comes along with it, including the famous "who did that?" phrase. No need to call multiple subcontractors when an issue arises.

REQUEST A QUOTATION

Let Eagle Quote Your Next Project
quotes@eaglegrp.com

HOW IT WORKS

It's easy to request a quotation from Eagle Group.
Please include the following information with your request:

TELL US WHO AND WHERE YOU ARE

Give us your name and/or the dealer name and city/state

INCLUDE PROJECT DETAILS

Job name and location

TELL US THE TIMELINE

Required date for quotation
Bid date for project
Projected install date or timelines

GIVE US THE DETAILS

Consultant name, when applicable
Special considerations
Send plans and/or specification related to the project

Want to know if SpecFAB® will work in your application? SpecFAB® projects have been designed and installed in a wide variety of facilities, including:

- Stadiums and arenas
- Casinos and racetracks
- Theaters and theme parks

- Convention centers
- Hotel banquet facilities
- Resorts and hotels

- Restaurants and cafes
- Food courts and cafeterias
- Educational institutions
