## New Flush Floor Mop Sinks

### Design and Construction Features

- Heavy gauge type 304 stainless steel construction
- 16 1/2"-high standard backsplash, with end splash on left, right, or both sides
- Available with subway-style fiberglass or stainless steel grates
- Anti-splash angles at front and rear of mop sink help eliminate spillage.
- Built-in pitch towards drain ensures complete drainage
- Flow rate of 20 gallons per minute
- Stainless steel drain accommodates up to 4"- diameter pipe, and features removable perforated stainless steel basket.

unit with left and right splashes (with fiberglass grating)

unit with left splash (with fiberglass grating)

unit with right splash (with stainless steel grating)

Eagle's NEW Flush Floor Mop Sinks allow ease of disposing dirty water without lifting or spilling. 16 1/2"-high standard backsplash, plus end splash(es), help protect adjacent walls and floors. Subway-style grating, for ease of cleaning and drainage, included.

Fiberglass grating features 1"-high yellow polyester material with non-slip grit top surface. Tapered "I" beam construction.

Type 304 stainless steel grating features 3/16" x 1" vertically positioned bars spaced 5/8" apart. 3/8" stainless steel rods, set 2 1/4" in from each edge, are welded to the bars to eliminate swaying.
