Panco® Transport Systems

A simple solution to a frustrating situation... "How can we get all this from here to there?" Panco® Transport Racks provide the most efficient way to handle the many items required in the preparation, serving and storage of your products.

Panco® Transport Racks succeed in pairing efficiency with durability. Developed in conjunction with the needs of the customer, the following features make Panco® mobile open utility racks the choice of the foodservice industry.

- Designed with the end user in mind to endure the test of time. All Panco® racks are constructed of stainless steel or high-strength extruded aluminum sections.
- Roll, glide and maneuver easily with non-marking NSF® approved swivel casters.
- Rack slides are designed to fit most popular tray sizes and are configured to accommodate a variety of products.
- Available in several widths and heights, Panco® provides the perfect size open transport rack to fit your needs.
- While all transport units can also be used as storage areas, there are workstation and refrigerator roll-in models as well.

The Eagle Advantage™ begins right here in our state of the art manufacturing facility

- with 14 acres under one roof - where the most comprehensive broadline product offering in the industry takes shape. This all-inclusive design and production capability offers distinct advantages to our customers. Streamlined ordering and shipping substantially reduce freight, receiving, installation and administrative costs.

Supporting it all is a framework of highly responsive customer service representatives, the most innovative, versatile and durable equipment available on the market today, a fleet of company-owned trucks, plus amply stocked distribution centers in strategic locations nationwide - which guarantees product availability and delivery.

Together, it adds up to product excellence enhanced by measurable cost savings and value.

We call it *The Eagle Advantage™* and you can profit from it.
